Price Options *(Choose one of the following Options)*

Select One of the Pricing Options	Choice of 2 x each Course giving the guest an option on the night (\$145) For 100x guest we would prepare 140x meals. The ratio is based on the items chosen and our experience on what is likely to be most popular Alternative Drop, Choice of 2 x each course. (\$140) This Means the Bride and Groom choose 2 x items from each course in advance and we place them alternatively to the guest. The MC Will tell the guest this is what will happen and they are encourage to swap with the person next to them should they wish. This has been very common in Hotel Banquets for a long time and we are finding many of our couples are now choosing this as a way of savings some money. We find it loosens people up and can create a great atmosphere and point of discussion at each table Choice of 1x each course. (\$135) This is chosen by the Bride and Groom in advance and again is very common as it is more economical for them.
--	---

Please note: Whilst all care and attention is given in making sure your guests get their selection of choice, we cannot guarantee on the day that this may be the case. We cater for an over ratio of all choices, but do not know what your guest may choose until the day
